DIVISIO Magnetic Pin Adapter

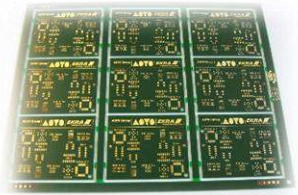

DIVISIO Series Depaneling Systems

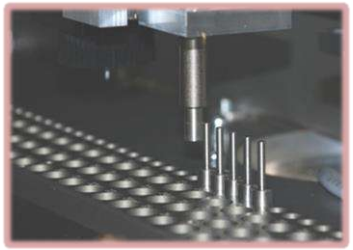

DIVISIO Magnetic Pin Adapter

La domanda è: come bloccare il PCB?

The question is how to fix the PCB?

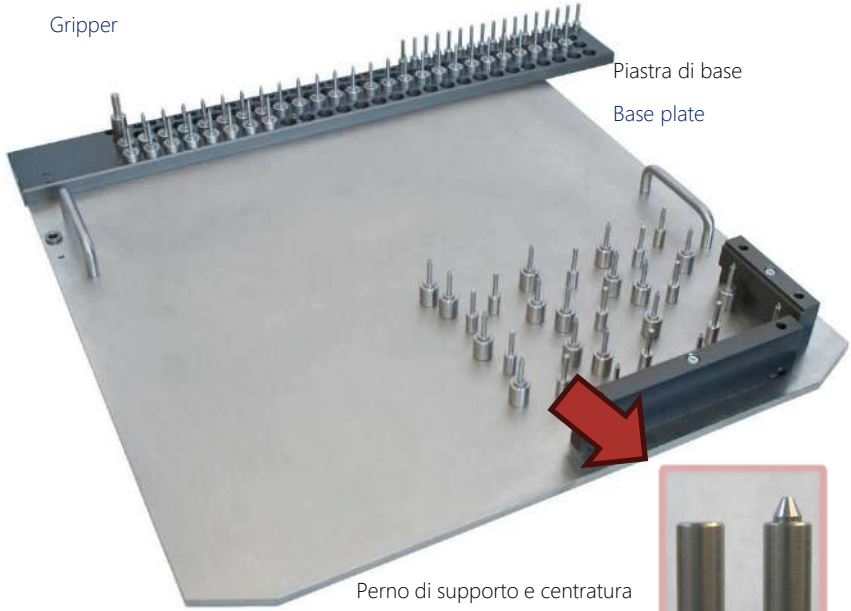

Pinza

Gripper

Magnetic Pin Placement

- Soluzione con adattatore estremamente conveniente
- 1 set di adattatori per tutti i prodotti
- Compatibile con ADS 01M – Adattatori
- Posizionamento automatico o manuale dei perni
- incl. perni diversi
- incl. Pinza per tutti i perni

- Extreme cost saving adapter solution
- 1 adapter set for all products
- Compatible to ADS 01M – Adapters
- Automatic or manual positioning of the pins
- Incl. different pins
- Incl. Gripper for all pins

Magnetic Pin Placement Adapter Set

Ciclo del processo di lavoro
Workflow process cycle

Only four steps to start production

1. Programmazione delle posizioni dei pin tramite ASYCAM
1. Programming of the pin positions by ASYCAM

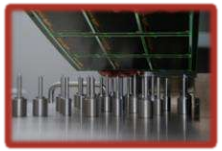

2. Prelievo dei PIN dal magazzino tramite pinza
2. Pick up of the pins from the magazine by the gripper

3. Posizionamento perni su piastra base tramite DIVISIO (spazio di lavoro identico!)
3. Pin positioning on base plate by DIVISIO (identical work space!)

4. Controllo delle corrette posizioni da parte dell'operatore
4. Checking of the correct positions by operator

Rilascio della produzione! Release of production!

Valore per il cliente
Customer value

Notevole risparmio sui costi:
- Un portapezzo per tutti i prodotti!
- Nessun costo di stoccaggio per i portapezzi!
- Costi di manutenzione inferiori!

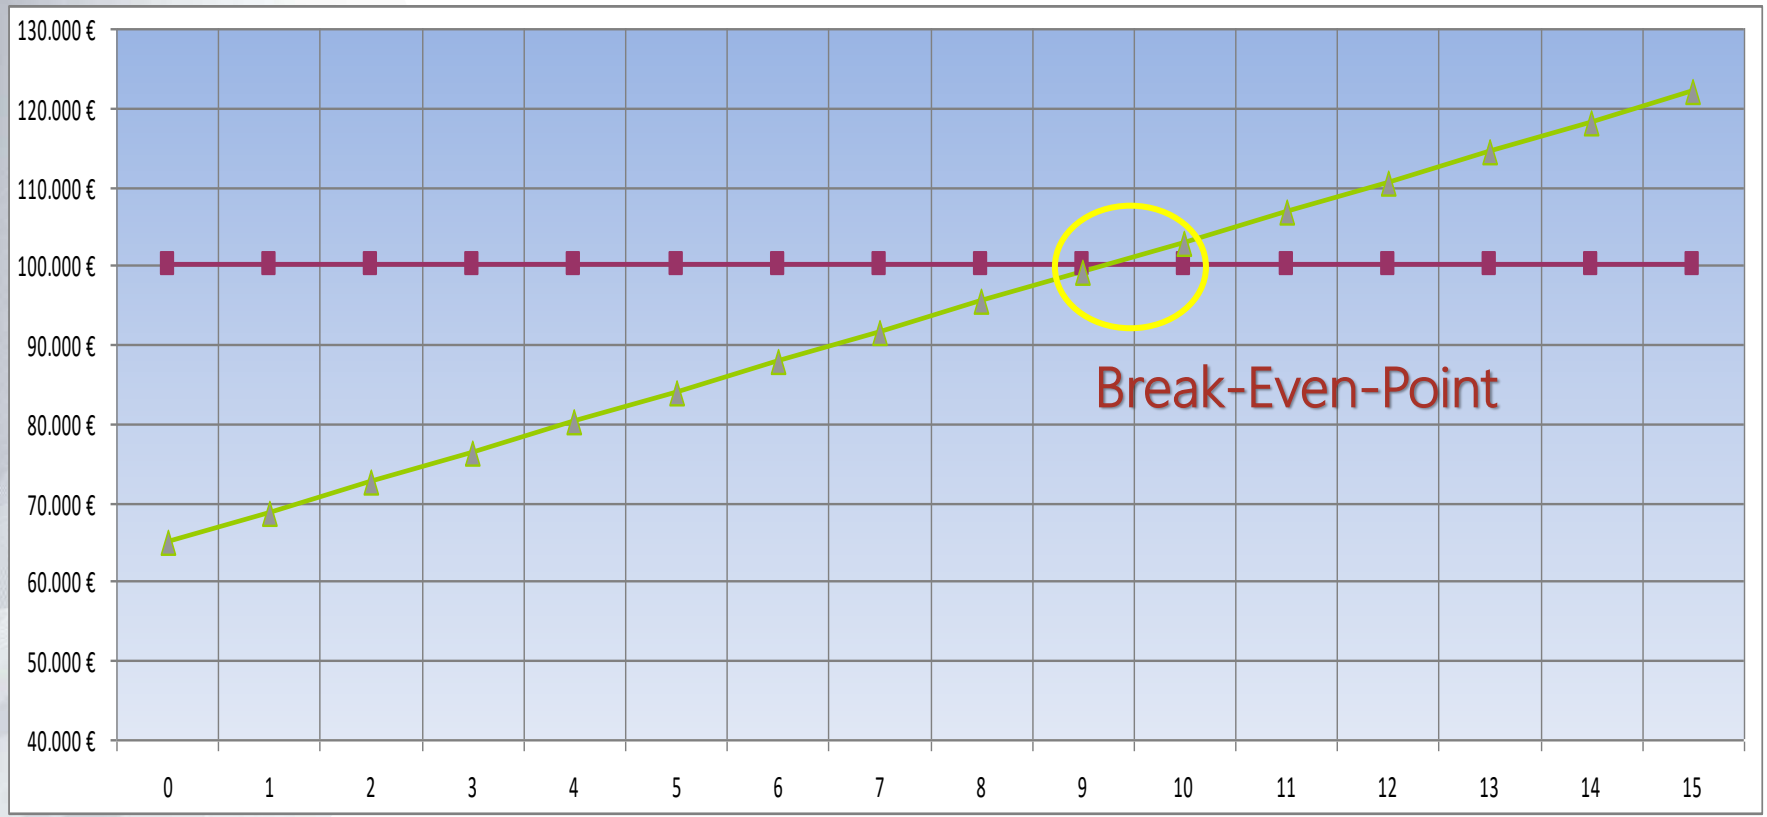

Alta precisione:
- Creazione del portapezzo e del processo di instradamento in un'unica operazione!

Significant cost saving:
- One work piece holder for all products!
- No storage cost for work piece holders!
- Lower maintenance cost!

High accuracy:
- Creation of work piece holder and routing process in one operation!

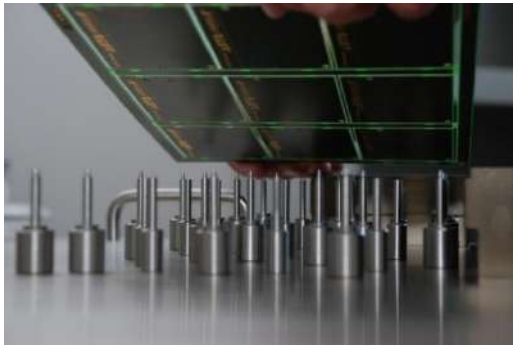

Punto di pareggio per l'adattatore con pin magnetico
